

The time is now - renew your Desktop Subscription today

Your Desktop Subscription is coming to an end, but you don't have to let it. Make sure you maintain access to your software and continue to receive Desktop Subscription benefits by contacting your reseller about renewing today.

► Get the latest software releases for less

Renewing your Desktop Subscription allows you to maintain access to the latest Autodesk software for however long you require it and at a price that fits your needs. With Desktop Subscription, you can better predict and control the costs of your software budget while accessing the tools you need to stay ahead of the curve.

If you're planning to stay competitive by having the latest software, connect with your Autodesk Authorized Reseller today to help you determine the value of renewing your Desktop Subscription.

► New product enhancements keep your tools current and skills sharp

Whether you're growing your teams or trying to do more with a smaller workforce, maintaining consistently high levels of productivity is critically important. Cutting edge work demands cutting edge software; software that makes you faster and more competitive. With Desktop Subscription you get access to the latest updates and product enhancements for your software as soon as they're released*. Continuous access to the latest Autodesk design tools and cloud services enables you to accomplish tasks that are simply not possible with outdated technology, helping you to consistently maintain a competitive edge.

► Subscription licensing rights help you stay nimble

When collaborating across internal and external teams, you need the right version of your software on hand at the right time and at the right place. Licensing rights—including Previous Version Rights and the ability to access your software on multiple machines, globally**—give you the tools you need, where you need them. These licensing rights enable you to access both current and earlier versions of your software, switch between your office computer and home computer, and work outside your country of purchase**.

► Cloud-based tools preserve your extended workflow

You need to visualize, optimize and share design options with team members and clients in various locations. Desktop Subscription helps you increase mobility, streamline collaboration, and optimize and analyze designs through privileged access to a variety of cloud-based services***. These services utilize the virtually infinite power of the cloud to run complex and resource-intensive tasks—such as analysis and rendering—without tying up your desktop.

Cloud benefits

> Stay productive with technical support at your fingertips

When issues arise, you need quick resolution to minimize downtime and keep your projects on track. With Desktop Subscription, you can choose a technical support plan that's tailored to your needs—from tutorials to community forums to dedicated support specialists.

> Management tools to monitor your investment

Managing software licenses, versions, and usage can be difficult and time-consuming. Online reports and management tools in Autodesk Account give you greater visibility into your organization's contract status, cloud credit usage, and software and support needs. Now you can spend more time working and less time managing software.

Keep your Desktop Subscription software working for your organization! Contact your reseller today.
